I'm a **FULL-STACK DESIGNER AND DEVELOPER**

experiences. I've been digitally solving  
problems for 4 years.

I've done design and development on:

E-Learning

I also run a design practice. "Maximum Crash"

In my spare time I like to draw cartoons,  
skateboard, travel, make chiptune music  
[I use a gameboy], and take care of my plant  
[promptly named "dude"].
